Vladimir Putin's 1776 Revolution Against The Corrupt Rothschild Money Changers!

BBC Hardtalk guest for September 10, 2008 was Mr. William F. Browder. Even though his investment fund is one of the largest foreign investors in Russia he was recently declared 'persona non grata' in Russia and has been denied entry to that nation.

## **Rothschild's BP ~British Petroleum's Gift To The United States. Think This Was An Accident? Think Again!**

If you recall, TNK-BP had a recent flap and BP pulled all of their 150 people out of Russia. The new CEO of TNK-BP will be a Russian, not a person from the US or UK. That was announced last week. The line is drawn in the sand

regarding Western Rothschild Zionist schemes to wedge in on the Russian energy market.

**William Felix Browder is the  
Chief Executive Officer  
Hermitage Capital Hedge Fund.  
Born: 1964  
Education: University of  
Chicago.**

William F. Browder is the founder and CEO of Hermitage Capital Hedge Fund Management, along with well-known Lebanese Rothschild Zionist banker Edmond Safra (now deceased). You may recall that he was supposedly killed by his caretaker in Monaco years ago.

It takes some time but any diligent researcher can find Safra's ties to George Soros, Marc Rich (pardoned by Clinton for crimes in the US), and Bruce Rappaport, a Rothschild Zionist Swiss banker who is also on the Russian criminal List. All three of them are well-

known Rothschild Zionist thugs and all three of them are on the Russian Criminal List.

Rappaport has major ties to Marc Rich, the Rothschild Zionist West criminal who Russia does not like or trust, and who is directly involved with Bank Menatep and Mikhail Khodorkovsky, the imprisoned former head of Yukos Oil.

Russia Kicks Out Monsanto 2012: Russia Kicks Out Rothschild 2006 ~ Obama Ushers In Monsanto VIA 'North American Union' Ploy 2011.

He was also directly tied to a \$15 billion money laundering scam that involved Bank Menatep, Bank of New York and Rothschild Zionist dual citizen Mikhail Khodorkovsky and Yukos. The largest Russia oil company at that time, Yukos, was taken over by Rothschild Zionists in a major scam and Putin hammered them.

Browder's company Hermitage Capital Hedge Fund Management was pursuing major investments in Russian energy since 1996 and has made significant investment into some of the Russian giants such as Gazprom, now the world's largest natural gas company. Reportedly the total amount invested was about \$4 billion and was mainly in banking, oil and natural gas. Mr. Browder was very specific that it was not his

money; he represents 'others' in these Russia investments and collects his fees for management. Sniff?

Russia will cause The United States reflect upon what they have allowed Rothschild to do to their own country. So when you see protests against Vladimir, keep in mind it is probably staged by The Rothschild's trying to control Russia once again.

- We Have A Convicted Felon Still Driving Behind The Wheel In America: His Name Is George Soros!

Yeah, that is the Rothschild and Zionist West target every time: oil, natural gas and banking. This is one of those where there is smoke, there is fire types of stories. The door to foreign investment in Russia is wide-open. I know because our nanotechnology company is engaged in negotiations with Russia on multiple levels. The record is clear that Mr. Browder was beaten, had business records confiscated by Russian authorities and was denied entry into Russia.

If his run-in was with the Russian mob, he would no longer be alive so we can rule that group out. If he had crossed some of the Rothschild Zionists still in Russia, he would no longer be alive so we can rule them out, too. If his run-in was being found out to be a front man for trying to take over Russian energy, for certain Rothschild Zionist parties, yeah, that will get your ass stomped real good in Russia every time.

## **Sergei Magnitsky**

Enter Sergei Magnitsky, William Browder's Attorney Of Hermitage Capital Hedge Fund Management & Tax Accountant For Firestone Duncan In Moscow.

Sergei Magnitsky was a 37-year-old Russian lawyer for an international investment fund, Hermitage Capital Management, who died in a pre-trial detention centre in Moscow, nearly a year after he was arrested in an escalating feud between the Russian authorities and the company. Whether he died of untreated illnesses, we cannot know. But the US Congress, acting on the unsubstantiated allegation that Magnitsky was tortured and murdered, attached to the trade normalization bill a provision that requires the US government to release a list of Russian government officials believed or imagined to have been involved with the violation of Magnitsky's human rights and to freeze the assets of these members of the Russian government and to deny them visas to travel to the US. Considering Washington's belief that its law is the universal law of humankind, Washington probably intends for every country to enforce its edict or to be sanctioned in turn.

With its power declining, Washington was not able any longer to keep Russia out of the World Trade Organization. Congress showed its spite over its impotence by hooking the normalizing of trade with Russia to what is called the “Magnitsky rule.”

- FBI Witness Murdered Who Had Access & Was To Testify In Obama/Soetoro Passport FBI Investigation.

### **How About A Colonel Terry Lakin Act?**

- Will Congress & Chief Justice John Roberts Remain Idle, While An American Soldier Faces Human Rights Violations Defending The Constitution?

The Russian government finds the “Magnitsky rule” amusing. Here is the Russian government accused, without any evidence, of ONE torture and death, while Washington has such a large number of torture deaths from Abu Ghraib to Gitmo to the secret CIA torture centers to endless drone attacks on kids’ soccer games, weddings, funerals, medical clinics, schools, farm houses and aid workers. - Shift Frequency

This unilateral act by some members of congress (who are directly linked to Rothschild) wrecks of propaganda to cover up the crimes of the Rothschild banking cronies.

### **Back To The Article:**

Being a front for Rothschild Zionist aims on Russia energy assets is a 'sure ass-whuppin' as we say down South. The Russians will take a person out behind the barn and 'beat ya like they don't know ya'.

William Browder was alleged by the Venona project of having had connections to the Soviet secret services KGB/GRU and in 2006 he was blacklisted by the Russian government as a "threat to national security" and denied entry to the country.

The Economist has accused the Russian government that this blacklisting occurred because he interfered with the flow of money to "corrupt bureaucrats and their businessmen accomplices." Sberbank is the largest savings bank in Russia and is involved in Russia and East Europe. Of note, one of the most hated Rothschild Zionist oligarchs in Russia is German Gref, it's Chairman, CEO.

"William Browder is the CEO and co-founder of the investment fund Hermitage Capital Management. Founded in 1996 by Browder and Edmond Safra and investing mainly in Russia, his fund is a prominent activist shareholder in the Russian gas giant Gazprom, the large oil company Surgutneftegaz, Unified Energy Systems and Sberbank."

Sberbank Yeah, I can see where the Rothschild Zionists and Neocons would love to show Russians how adept they are at stealing the savings of the citizens of any nation.

The only way to get on the Russian Shit List is for their intelligence services (KGB, GRU) and financial investment arms to find out one of two things.

1.First, that a Russian presence is engaged in money laundering activities for the Rothschild Zionist oligarchs who are under investigation...and most of them are. Over time, Putin and his people will nail a lot of them. Some of you may remember that the interim leader in Russia prior to Dmitry Medvedev was Viktor Zubkov. His full time job in Russia is to investigate and root out the corruption in Russia, and his hands have been full in defending Mother Russia from endless Rothschild Zionist efforts to worm their way in and take over the Russian energy assets.

2.The second way to get on that list is for Russia to learn that you are fronting for entities and persons who have as the sole objective scams and schemes to take over Russian energy reserves. That is the number one no-no in Russia. They have had their fill of Western Rothschild Zionist malignant schemes to carve up Russia to pad their illegal bank accounts.

Russia has alot of experience with the Rothschilds, beginning with Rothschilds financing Vladimir Lenin in the overthrow of their Monarch in 1917 and the horrid depopulation schemes that went along with the centralization of their money into Rothschild coffers.

What I found most interesting in looking into this matter is Browder is the grandson of the former US head of the Communist Soviet Party in the US and former Communist Party candidate for president...his grandfather did, in fact, run for president.

•Last Soviet President Mikhail Gorbachev was also kicked out of Russia and still pursues his dream of Sovietizing America for Rothschild. 100 Million Americans In Or Approaching Poverty: Treasonist & CFR's Mikhail Gorbachev "Our Aim Is To Disarm The Americans And Let Them Fall Asleep."

I cannot find anything on his religious affiliations but my bet is he is a Neocon Zionist or a Plain Jane Neocon fronting for the Rothschild Zionist New World Order agenda as it pertains to Russia and stealing all the energy assets it can. William Browder is also a graduate of both the University of Chicago (same as many of the Neocons) and Stanford University. The latter also being a favorite haven for the Neocons to get their higher level degrees...such as our Black Piss-Poodle Condi Rice.

### **Soros & Kerry**

George Soros HAD parked his sleazy butt in Moscow with his "Open Society" group and my sources inform that it is a known front for MI6 and CIA activities in Russia along with the US and UK embassies. As you can see Georg's site is benignly stating it is being redesigned hmmm I wonder for how long? –

My read on this is simply, if the Zionists think they are going to carve up Russia's energy assets, they had better be prepared to wrestle a damned big thermonuclear Russian Bear with a bad attitude toward western thieves.
